

Node.js Full Course Notes

Chapter 1: Introduction

Concepts, examples, best practices and practice exercises.

Chapter 2: Installation

Concepts, examples, best practices and practice exercises.

Chapter 3: npm

Concepts, examples, best practices and practice exercises.

Chapter 4: Modules

Concepts, examples, best practices and practice exercises.

Chapter 5: File System

Concepts, examples, best practices and practice exercises.

Chapter 6: HTTP

Concepts, examples, best practices and practice exercises.

Chapter 7: Events

Concepts, examples, best practices and practice exercises.

Chapter 8: Streams

Concepts, examples, best practices and practice exercises.

Chapter 9: Async Programming

Concepts, examples, best practices and practice exercises.

Chapter 10: Express.js

Concepts, examples, best practices and practice exercises.

Chapter 11: REST API

Concepts, examples, best practices and practice exercises.

Chapter 12: MongoDB

Concepts, examples, best practices and practice exercises.

Chapter 13: Mongoose

Concepts, examples, best practices and practice exercises.

Chapter 14: JWT Authentication

Concepts, examples, best practices and practice exercises.

Chapter 15: Multer

Concepts, examples, best practices and practice exercises.

Chapter 16: Error Handling

Concepts, examples, best practices and practice exercises.

Chapter 17: Deployment

Concepts, examples, best practices and practice exercises.

Chapter 18: Projects

Concepts, examples, best practices and practice exercises.

Chapter 19: Interview Questions

Concepts, examples, best practices and practice exercises.

Chapter 20: Career Roadmap

Concepts, examples, best practices and practice exercises.
